Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

With Primary's approval, Examiner contacted Atty with proposed amendments that would place the application in condition for allowance. The proposed amendments include the limitation for determining if received modification information conflicts with other modification information and resolving the conflict by generating new modification information, and the distribution device storing data in a device-specific format while the receiving device stores the data in a different device-specific format. This amended language was incorporated into independent claims 16, 21, 30, 50 and 93; and dependent claims 89-92 were made for the other conflicting scenario. All other claims not dependent on these claims were canceled. Atty received authorization to accept the proposed Examiner's Amendments and the claims were amended accordingly.

Part III.

☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.
